ABOUT ME

Shane Sale, BCTMB, LMT

Shane Sale graduated from Utah College of Massage Therapy in 1998 with a focus in sports massage and chronic pain. He didn't realize it at the time, but it marked the beginning of his journey...

...A journey which led him to discover there was more to the world than what you could physically see. He became consciously aware of his inner light.

...He has been a massage instructor since 2001. In the last two years he has created CEU classes for massage therapists all over the country.

2014 was another leap in his journey when he became a medical intuitive. All of his external/internal trainings over the years raised his energetic vibrations.

...Today, he incorporates his years of trainings and knowledge into his sessions and teachings. His passion is to be of service to others by helping them heal.

INTUITIVE SESSIONS

Intuition is that gut feeling, or that subtle voice that moves you in a certain direction. We all have it. The big question is do we listen to it? Inner light Shines helps you to discover your intuition (*Light*) through bodywork, intuitive sessions and education. Shane taps into spirit for guidance in all of his work.

MEDIUM

A medium is someone who can communicate with people that have transitioned to the other side. People often seek out a medium for reassurance that their loved one is okay. People on the other side want you to know they are doing well and desire to relay messages to you. Inner light Shines believe's everyone has the ability. Abilities vary from one person to the next. Connecting with the other side is like tuning your radio to a specific station. Shane has the ability to tune in to the station and relay the messages. Messages that come through are full of love, hope and reassurance.

PSYCHIC

A psychic is someone who taps into your energy system (chakras and human energy field). They have the ability to share with you what the energy is and where it is leading you. The energy is based on your thoughts and decisions at any given moment. Inner Light Shines helps you to understand your true purpose and what is in your highest & greatest good at that moment.

MEDICAL INTUITIVE

A medical intuitive has the ability to observe a person's energetic system, skin, muscles, bones, organs and fluids. Any abnormalities that are meant to be observed are documented and left balanced, whole and complete upon ending a healing session.

Note: No diagnosis or prescriptions are given.

Shane's source of information comes from spirit (*Light*). Reasons people would want a medical intuitive session:

- Life threatening condition
- Before and/or after hospital stay
- Just curious & would like a session
